This problem of refusal persists because there are too few people like Prof Thomas Russell who are willing to stand against abhorrent race based practices – past and present.”)

In an article posted at the online Social Science Research Network, Tom Russell said university records indicate that the special committee's recommendation to the Faculty Council omitted mention of Simkins' Klan ties.”)

That he rode a masked horse, and that he went out at night on night rides to terrorize free blacks,” Russell said in a telephone interview. . . . Dr. Russell takes issue with the Jefferson comparison, saying that Simkins was a criminal even by early 20th century standards. “He engaged in activity that was illegal then and illegal now. And this distinguishes him from, say[,] confederate soldiers or even slave owners,” Russell said.)

Dr. Torrance Stephens, “[University of Texas Dormitory Named After KKK Leader](#),” (June 2, 2010) (“It's strange how even at institutions of higher learning, information such as this is not actively sought out. It is readily available, even on the University Texas housing web site which gives all of the background and historical information on the residence halls. It even mentions Simkins founding of the Floridian KKK. However, it requires a compassion for pedagogy that a large corpus of students — in particular African Americans — do not evince, for we know
